WORK EXPERIENCE

Full-stack Web Developer Intern

BurdenOff   2024-Ongoing

- As a Full Stack Intern, I develop cross-platform applications using React.js, Ionic.js, and Capacitor for Android, iOS, and desktop.
- I employ Tailwind CSS for responsive styling and use Express.js for the server side, connecting to a PostgreSQL database with Prisma as the ORM.
- I handle API interactions with GraphQL and write code in TypeScript for both the front end and back end, ensuring type safety and enhancing code quality.

Full-stack Web Developer Intern

Node.js, MongoDB,tailwindcss,react-components, React, Redux, Express

COMPLETED **CODE - PREVIEW**

- This was a certification-based internship where I was assigned a task to develop an E-commerce application
- Developed a full-featured e-commerce website with secure user login, product browsing, shopping cart, Cashfree payment integration, and admin dashboard for comprehensive CRUD operations.

PROJECTS

Hotel Booking Website

Node.js, MongoDb,Prisma, React, Express

COMPLETED **CODE - PREVIEW**

- The hotel booking website allows users to search for hotels by location, view room details, make reservations based on selected dates, and manage their profiles and bookings through a user dashboard.

Admin Dashboard

React, Nodejs, Express, MongoDB, Prisma, SCSS

COMPLETED **CODE - PREVIEW**

- The admin dashboard provides authentication and comprehensive management capabilities for room data, hotel data, user data, and booking data, including the ability to handle room details, hotel information, user profiles, and booking details.

Secret Sharing web App

React, Nodejs, Express, MongoDB, Tailwindcss

COMPLETED **CODE - PREVIEW**

- A full stack web application where you can generate a link for your secret and share it.
